

Rose Wang's CV

Rose Wang

[cite__start]Software Developer, Computer Science Student[cite: 1, 11, 13].

shijia.engineer@gmail.com | LinkedIn | [cite__start]385-371-0078 [cite: 2]

Currently

[cite__start]Software Developer at Brigham Young University-Idaho while pursuing a Bachelor's in Computer Science (GPA 4.0/4.0)[cite: 11, 13].

Specialized in

- [cite__start]**Languages:** Python, Java, JavaScript, TypeScript, C++[cite: 5].
- [cite__start]**Frameworks:** React, Next.js, React Native, Flask, Streamlit[cite: 6].
- [cite__start]**Testing & Automation:** Selenium, Storybook[cite: 9].

Research & Technical Interests

[cite__start]Full-stack development, AI-powered dynamic gift recommendations, audio analysis functionality, and secure data layers for transactions[cite: 33, 42, 45, 46].

Education

Apr 2025 - Expected Dec 2026 [cite__start]**Brigham Young University-Idaho** [cite: 11] -
[cite__start]Computer Science: GPA 4.0/4.0 [cite: 11]

Awards & Honors

Oct 2025 [cite_start]**2nd Place Winner**, *HackUSU*, Sales Dashboard Factory Challenge [cite: 31] - [cite_start]Winner of the “Data App Factory” Challenge [cite: 32]

Experience

May 2025 - Present [cite_start]**Software Developer**, Brigham Young University-Idaho [cite: 13] - [cite_start]Maintained and enhanced 5+ production systems supporting 6+ university offices[cite: 14]. - [cite_start]Built and deployed 10+ iPaaS automations, improving data consistency[cite: 15]. - [cite_start]Partnered with 6+ departments to deliver process improvements that significantly improved support request turnaround[cite: 16].

Nov 2024 - Apr 2025 [cite_start]**Software Engineer Intern**, Route [cite: 17] - [cite_start]Assisted 30+ Shopify merchants with widget implementation and CSS styling[cite: 18]. - [cite_start]Solved 10+ integration issues weekly and ensured smooth plugin functionality[cite: 19]. - [cite_start]Delivered technical guidance to non-technical stakeholders to resolve front-end issues[cite: 20].

Jun 2024 - Aug 2024 [cite_start]**Software Engineer Intern**, Alysio [cite: 26] - [cite_start]Implemented Storybook to streamline React component testing and documentation[cite: 27]. - [cite_start]Used Chrome DevTools to debug and resolve 20+ UI/functional issues[cite: 28]. - [cite_start]Automated test scripts for login validation, reducing manual QA cycles[cite: 29].

May 2023 - Nov 2024 [cite_start]**Software Support Technician**, FamilySearch [cite: 21] - [cite_start]Automated repetitive web tasks using Selenium, cutting manual workflow time by 60%[cite: 22]. - [cite_start]Optimized 15+ application logic instances for speed and accuracy[cite: 23]. - [cite_start]Conducted 10+ software tests per week and identified critical bugs[cite: 24].

Projects

Data & AI Applications

Oct 2025 [cite_start]**Sales Dashboard Factory (HackUSU)** [cite: 31] - [cite_start]Architected a secure data layer using Databricks SQL & Unity Catalog[cite: 33]. - [cite_start]Developed a SQL validator enforcing Role-Based Access Control (RBAC)[cite: 34]. - [cite_start]Tech Stack: Databricks, Python (Pandas), Streamlit[cite: 35].

Oct 2025 [cite_start]**Santa’s Workshop** [cite: 40] - [cite_start]Built a real-time gift-tracking web app using Next.js, React, and TypeScript[cite: 41]. - [cite_start]Implemented AI-powered gift recommendations with Google Genkit[cite: 42].

May 2025 - Jul 2025 [cite_start]**Sing2Track** [cite: 44] - [cite_start]Engineered a full-stack web application to record and process audio input[cite: 45]. - [cite_start]Developed audio analysis to convert vocal melodies into editable MIDI notes[cite: 46].

Web & Extensions

Nov 2025 [cite_start]**Portfolio Web Page** [cite: 36] - [cite_start]Architected a React-based portfolio featuring dynamic Tailwind CSS animations[cite: 37, 38].

Apr 2025 [cite_start]**BYUI Login Extension** [cite: 47] - [cite_start]Developed a Chrome extension saving users 10+ minutes daily through automated login[cite: 48]. - [cite_start]Implemented secure credential storage and auto-fill functionality[cite: 49].

Skills Summary

- [cite_start]**Languages:** Python, Java, JavaScript, TypeScript, C++ [cite: 5]
- [cite_start]**Web & UI:** HTML, CSS, Tailwind CSS [cite: 7]
- [cite_start]**Cloud & Tools:** AWS, SQL, Git/GitHub, Postman, Chrome DevTools [cite: 8]
- [cite_start]**Testing:** Selenium, Storybook [cite: 9]
